Company: RIOS LLC
Campaign Use Case: Mixed / Marketing / Customer Care
Document Version: 1.0
Date: January 2026

Campaign Description

Business Model (Plain-English Summary)

RIOS LLC is a U.S.-based e-commerce retail company. We sell curated consumer retail products directly to customers through our website and fulfillment partners. Our revenue is generated from direct retail sales of those products. We are not a lead-generation business, we do not broker leads, and we do not sell, rent, or share customer contact information with third parties for marketing purposes.

The **VIP List SMS program** is a free, opt-in customer-loyalty and customer-care channel that supports the retail business. Customers who want to be notified first about new product launches, limited-quantity restocks, member-only offers, and their own order/account activity can opt in on our public website. The VIP List itself is not a paid subscription; it exists to drive repeat purchases from existing and prospective retail customers and to provide order/support communications.

Business Context

RIOS LLC operates the VIP List SMS program alongside its e-commerce storefront. The program provides two distinct categories of messages that customers can consent to independently:

- **Marketing SMS:** new product drops and launch announcements, member-only offers and special deals (discount codes, seasonal sales), limited restock alerts, and product/service updates.
- **Non-Marketing SMS:** account notifications, order and shipping updates, customer support replies, and other transactional messages.

Application/Service

The service is delivered through a public web-based opt-in form on the company homepage where users can join the VIP List. Users provide their contact information (first name, last name, email, U.S. phone number) and may explicitly consent to receive SMS messages by checking one or both separate, non-pre-checked consent boxes (one for marketing, one for non-marketing). The form does not force users to enroll in either message category, and only users who select an SMS consent checkbox are enrolled in text messaging.

End Users

End users are individuals who:

- Are existing or prospective retail customers of RIOS LLC
- Want early access to new product launches and exclusive promotional offers

- Want order, shipping, and account notifications about their purchases
- Have voluntarily opted in to receive SMS notifications from RIOS LLC
- Are located in the United States (U.S. phone numbers required)

Complete User Workflow

1. User Discovery

Users discover the VIP List program through:

- Website marketing
- Referrals
- Direct navigation to the opt-in page

2. User Sign-Up Process

1. User visits the public opt-in page (no login required)
2. User sees program description: "Get text updates from RIOS LLC about new product drops, member-only offers, limited restocks, and order updates."
3. User views customer care contact information (email and phone)
4. User fills out form with:
    - First Name (required)
    - Last Name (required)
    - Email Address (required)
    - Phone Number (required, US format)
5. User reviews program description section that explains:
    - Types of messages they will receive (marketing and non-marketing)
    - Message frequency (up to 10 messages per month)
6. User may provide explicit consent by checking **one or both separate consent checkboxes** (one for marketing SMS, one for non-marketing SMS)
    - Neither checkbox is pre-checked
    - The form does not force the user to consent to either message category
    - Each consent text clearly explains what the user is consenting to
    - Includes all required disclosures (rates, frequency, opt-out, HELP, customer care, links to Terms and Privacy Policy)
    - Marketing consent text (live form wording): *"I consent to receive marketing text messages from RIOS LLC at the phone number provided about new product drops, member-only offers, limited restocks, and product or service updates. Message frequency may vary and may total up to 10 messages per month. Message & data rates may apply. Text HELP for assistance, reply STOP to opt out. Consent is not a condition of purchase."*
    - Non-marketing consent text (live form wording): *"I consent to receive non-marketing text messages from RIOS LLC at the phone number provided about order updates, shipping notifications, account alerts, customer support replies, and other transactional messages. Message frequency may vary. Message & data rates may apply. Text HELP for assistance, reply STOP to opt out."*
7. User clicks "NEXT" button to submit form

8. Form validates all required contact fields. SMS enrollment only applies if the user actively selected at least one SMS consent checkbox.
9. User receives an immediate post-submit confirmation on the page. If SMS consent was selected, the confirmation includes the SMS program disclosures.

3. How Users Provide Phone Numbers

- **Method:** Direct user input via web form
- **Field:** Clearly labeled "Phone Number" with required asterisk
- **Format:** US phone number format (XXX) XXX-XXXX
- **Validation:** Phone number is validated before submission
- **No Third-Party Collection:** Phone numbers are collected directly from users, not from purchased lists or third parties

4. When and Why Users Receive SMS

Users receive SMS messages in the following scenarios:

Message Types:

1. **Product Drop Notifications**
   - Trigger: A new product release becomes available
   - Example: "RIOS LLC: New product drop now live. View details: [link]. Reply STOP to opt out."
2. **Promotional Offers**
   - Trigger: Special deals or discounts launch
   - Example: "RIOS LLC VIP: 20% off select products today only. Use code VIP20 at checkout. Reply STOP to opt out."
3. **Product/Service Updates**
   - Trigger: New products or services are announced
   - Example: "RIOS LLC: Product update available now. View the latest release here: [link]."
4. **Transactional Messages**
   - Trigger: Account-related events
   - Example: "Your VIP account has been updated. View changes: [link]"

Message Frequency:

- Up to 10 messages per month
- Frequency may vary based on available opportunities
- Users are informed of this frequency before and after opt-in

5. How Users Can Opt-Out

Users can opt-out at any time through multiple methods:

Via SMS Keywords (Immediate):

- Reply **STOP** to any message
- Reply **UNSUBSCRIBE** to any message
- Reply **END** to any message
- Reply **QUIT** to any message
- Reply **CANCEL** to any message
