A2P 10DLC Opt-In Process Documentation

Document Version: 1.0
Last Updated: January 2026
Company: RIOS LLC
Purpose: Documentation for A2P 10DLC Campaign Registration

Overview

This document describes the complete opt-in process for the RIOS LLC VIP List SMS program. This documentation is provided for A2P 10DLC campaign registration and verification purposes.

About RIOS LLC: RIOS LLC is a U.S.-based e-commerce retail company. Revenue is generated from direct retail sales of consumer products through our website and fulfillment partners. The VIP List SMS program is a free, opt-in customer-loyalty and marketing channel that supports the retail business — it is not a paid subscription, and RIOS LLC does not sell, rent, or share SMS opt-in data with third parties for their own marketing. See https://rios-llc.com/about.html for full business details.

---

1. Opt-In Method

Method Type: Web Form with Explicit Checkbox Consent

Location: Public website opt-in page (`index.html`)

Accessibility: The opt-in form is publicly accessible and does not require login or authentication.

---

2. User Workflow: How Users Opt-In

Step 1: User Visits Opt-In Page

- User navigates to the public opt-in page
- Page displays: "JOIN THE VIP LIST" heading
- Program description is visible: "Get text updates from RIOS LLC about new product drops, member-only offers, limited restocks, and order updates."

Step 2: User Provides Contact Information

The user fills out a form with the following fields:

- **First Name** (required text field)
- **Last Name** (required text field)
- **Email Address** (required email field)
- **Phone Number** (required tel field, US format: (XXX) XXX-XXXX)

Phone Number Collection:

- Phone number is collected directly from the user via a form input field
- Field is clearly labeled "Phone Number" with a required asterisk (*)
- US flag icon indicates US phone numbers are expected
- Phone number formatting is automatically applied as user types
- Help text states: "US phone number required for SMS delivery"

Step 3: User Reviews Program Information

Before providing consent, users see:

- **Program Description Section:** Lists what types of messages they will receive
- **Message Frequency Disclosure:** "You may receive up to 10 messages per month"
- **Customer Care Information:** Email and phone contact details

Step 4: Explicit Consent (Dual Checkbox)

- User may check either checkbox, both checkboxes, or neither checkbox. Explicit SMS consent is only provided for the category or categories the user actively selects — one checkbox is for marketing SMS and one checkbox is for non-marketing SMS
- Section is clearly labeled with heading: "SMS Consent & Authorization"
- Neither checkbox is pre-checked
- The form does not force users to opt into either message category
- **Marketing consent text (verbatim from live form):** *"I consent to receive marketing text messages from RIOS LLC at the phone number provided about new product drops, member-only offers, limited restocks, and product or service updates. Message frequency may vary and may total up to 10 messages per month. Message & data rates may apply. Text HELP for assistance, reply STOP to opt out. Consent is not a condition of purchase."*
- **Non-marketing consent text (verbatim from live form):** *"I consent to receive non-marketing text messages from RIOS LLC at the phone number provided about order updates, shipping notifications, account alerts, customer support replies, and other transactional messages. Message frequency may vary. Message & data rates may apply. Text HELP for assistance, reply STOP to opt out."*
- Consent text collectively includes:
  - Organization identity: "RIOS LLC"
  - Phone number reference: "at the phone number provided"
  - Message and data rates disclosure
  - Message frequency disclosure (up to 10/month)
  - Opt-out instructions (STOP, HELP keywords)
  - Customer care contact information (email and phone)
  - Links to Terms of Service and Privacy Policy
- Users may choose marketing, non-marketing, both, or neither. Only users who actively select an SMS checkbox are enrolled in text messaging.
- Consent is not a condition of any purchase

Step 5: Form Submission

- User clicks "NEXT" button to submit
- Form validates all required contact fields

- Upon successful submission, the form is replaced with an on-page confirmation state

Step 6: Confirmation Message

If SMS consent was selected, the user immediately receives an on-page confirmation that includes:

- Program description
- Message frequency disclosure
- "Message and data rates may apply" disclosure
- Customer care contact information
- Opt-out instructions
- Help keyword information If no SMS consent was selected, the user receives a confirmation that their information was received and that they are not opted in to text messages.

---

3. Consent Verification

Explicit Consent Evidence:

1. **Checkbox Selection:** Users can leave both boxes unchecked or actively choose either or both categories. Only boxes the user actively checks create SMS consent.
2. **Consent Text:** Clear, conspicuous language explaining what they're consenting to (marketing SMS and non-marketing SMS, separately)
3. **Timestamp:** Consent timestamp is recorded when form is submitted
4. **Consent Record:** System logs include:
    - Phone number
    - Marketing consent status (true/false)
    - Non-marketing consent status (true/false)
    - Consent method ("web_form_single_or_dual_checkbox")
    - Consent timestamp (ISO 8601 format)
    - Full consent text snapshot for the message categories the user selected
    - Source URL
    - User agent

Consent Storage:

- Consent records are stored with the following information:
    - Phone number
    - Marketing consent: true/false
    - Non-marketing consent: true/false
    - Consent method: "web_form_single_or_dual_checkbox"
    - Consent timestamp
    - Full consent text snapshot that user agreed to
    - User agent
    - Source URL

---

4. How Users Provide Phone Numbers

Method: Direct user input via web form

Process:

1. User types their phone number into a clearly labeled form field
2. Phone number field is required (cannot submit without it)
3. Format is automatically applied: (XXX) XXX-XXXX
4. Field includes US flag icon to indicate US numbers expected
5. Help text clarifies: "US phone number required for SMS delivery"
6. Phone number is validated before form submission

No Third-Party Collection: Phone numbers are collected directly from users, not from third parties or purchased lists.

---

5. When and Why Users Receive SMS

Message Types:

1. **Product Drop Notifications:** Alerts about new product launches and limited releases
2. **Promotional Offers:** Member-only deals and discounts
3. **Restock and Product Updates:** Information about limited restocks and product updates
4. **Transactional Messages:** Order, shipping, account, and customer-support communications

Message Frequency:

- Up to 10 messages per month
- Frequency may vary based on available opportunities
- Users are informed of this frequency before opting in

Trigger Events:

- New product drops or limited restocks become available
- Promotional campaigns launch
- Product/service updates
- Account-related transactions or updates

---

6. Opt-Out Process

How Users Can Opt-Out:

Via SMS Keywords (Immediate):

- Reply **STOP** to any message
- Reply **UNSUBSCRIBE** to any message
- Reply **END** to any message
- Reply **QUIT** to any message
- Reply **CANCEL** to any message
- Reply **STOP ALL** to any message

Via Customer Care:

- Email: Hello@rioscontact.me
- Phone: (213) 663-0834

Opt-Out Confirmation:

- After sending opt-out keyword, user receives confirmation message:
  - "You have successfully been unsubscribed from RIOS LLC. You will not receive any more messages from this number."

Opt-Out Documentation:

- Opt-out process is documented in:
  - Terms of Service (Section 4)
  - Privacy Policy (Section 7)
  - Consent checkbox text on opt-in form
  - Confirmation message after opt-in

---

7. Privacy Policy and Terms

Privacy Policy:

- Publicly accessible at: `legal/privacy-policy.html` (301 from `/privacy-policy.html` when deployed on Vercel)
- Documents how phone numbers are collected and used
- Explains SMS program privacy practices
- Includes user rights and data retention policies

Terms of Service:

- Publicly accessible at: `legal/terms-of-service.html` (301 from `/terms-of-service.html` when deployed on Vercel)
- Documents SMS program terms
- Includes opt-out instructions
- Includes customer care contact information
- Includes message frequency and data rates disclosures

Links to Policies:

- Both Privacy Policy and Terms of Service are linked:
  - In the consent checkbox text
  - In the footer of the opt-in page
  - In the confirmation message

---

8. Screenshots and Visual Documentation

For A2P Registration: Screenshots should be taken of:

1. The complete opt-in form (before consent)

2. The consent checkbox section with full consent text visible
3. The program description section
4. The confirmation message after opt-in
5. The Terms of Service page
6. The Privacy Policy page

Screenshot Hosting:

- Screenshots should be hosted on a publicly accessible URL (e.g., Google Drive, OneDrive, or your website)
- URL should be provided in the A2P campaign registration form

---

9. Technical Implementation

Form Validation:

- All fields are required
- Email format is validated
- Phone number format is validated: (XXX) XXX-XXXX
- Consent checkbox must be checked
- Form cannot be submitted without valid data and consent

Consent Recording:

- Consent is recorded with timestamp when form is submitted
- Consent record includes all required verification data
- Records are stored for compliance and verification purposes

Confirmation:

- Immediate on-page confirmation after successful opt-in
- Confirmation includes all A2P-required disclosures
- Confirmation is displayed prominently and cannot be missed

---

10. Compliance Notes

A2P 10DLC Compliance:

- ✅ Explicit consent via separate checkbox by message category, neither pre-checked
- ✅ Clear program description on opt-in page and About page
- ✅ Message frequency disclosure
- ✅ Message and data rates disclosure
- ✅ Opt-out instructions provided
- ✅ Customer care contact information
- ✅ Publicly accessible Terms of Service
- ✅ Publicly accessible Privacy Policy
- ✅ Consent records maintained
- ✅ No pre-checked consent

- ✅ Consent not required for purchase

Verification: This opt-in process can be verified by:

1. Visiting the public opt-in page
2. Reviewing the consent text
3. Checking the Terms of Service and Privacy Policy links
4. Testing the form submission process
5. Reviewing consent records (if provided access)
